SUMMARY

A proactive third-year undergraduate from the University of Moratuwa with a proven passion for building, not just coding. My approach is to understand the 'why' behind a product and contribute creatively, a mindset I've applied to both personal and freelance projects. Driven by a curiosity for new technologies and skilled in Flutter and Next.js, I am looking for an internship opportunity to apply my skills and learn from experienced developers.

PROJECTS

SalonBooking.lk (Ongoing)

- Leading a 5-member team in developing a full-stack web application to streamline salon appointment booking in Sri Lanka. Tech stack includes Next.js, Clerk for authentication, Redux Toolkit, MongoDB, and Upstash.

Poronduwa Mobile Application

- Leading the development of a Sri Lanka-based matrimony mobile application built with Flutter. Grew the user base to over 20,000 downloads on the Play Store.

Emailfy.email

- Developed and launched an AI-powered email platform that enhances productivity through voice-to-email conversion and personalized, memory-based response generation. Executed a successful product debut on Product Hunt to engage with the tech community.

ClearDesk Chrome extension

- Developed and published a Chrome extension to provide users with a personalized dashboard experience, designed to improve focus and organization. The extension is publicly available on the Chrome Web Store.

WORK EXPERIENCE

Mobile Application Developer (on contract)

Tussle Inc. (Aug 2023 - Jan 2024)

- Collaborated with the frontend team to develop and implement key features for the Tussle mobile app's iOS version using Flutter. Contributed to features such as real-time live streaming and user profile management.

Full-Stack Developer (Freelancer)

Fiverr & Direct Clients (Dec 2021 - Present)

- Engineered and delivered over 30 mobile app solutions for global clients, now available on the Play Store. Developed a range of full-stack applications, from e-commerce platforms to social networking apps. Independently completed 4+ client web projects from conception to deployment using Next.js.

EDUCATION

Bachelor of Science Honours in Information Technology | GPA: 3.2

University of Moratuwa, Sri Lanka

Expected Graduation: Dec 2026

GCE A/L - Physical Science Stream | Z-Core 1.68
